TRADEMARK REGISTRATIONS CANCELED

The designation "U.S. CL." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS AMENDED, CORRECTED, ETC.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Any change to the registration will be indicated at the bottom of each entry under ELEMENTS AMENDED, CORRECTED OR RESTRICTED. With the exception of changes to the goods and services, additions to the registration will appear in asterisks and deletions of the registration will appear in brackets. Elements which are only changed will be listed with no punctuation. As to the goods/services statement, amendments to the goods/services will appear in asterisks and deletions will appear in brackets. In addition if any change to the goods/services occurs, the element "Goods/Services" will be listed under ELEMENTS AMENDED, CORRECTED OR RESTRICTED.

Patent Cooperation Treaty (PCT) Information

For information concerning the PCT member countries see the notice appearing in the *Official Gazette* at 1076 O.G. 3 on Mar. 3, 1987.

For use of the European Patent Office as a Searching Authority for PCT applications filed in the United States Receiving Office, see the notice appearing in the *Official Gazette* at 1022 O.G. 52 on Sept. 28, 1982.

For use of the European Patent Office as a Preliminary Examining Authority for PCT applications filed in the United States Receiving Office, see the notices appearing in the *Official Gazette* at 1080 O.G. 2 on July 7, 1987 and at 1091 O.G. 2 on June 7, 1988.

Certain domestic PCT fees for international applications have been changed effective Oct. 5, 1985 in the rule change notice titled "Revision of Patent Fees" published at 1057 O.G. 24 on Aug. 20, 1985.

The Search fee of the European Patent Office was changed due to a difference in the exchange rate of the U.S. dollar with regard to the German Mark as of Oct. 1, 1988, and was announced in the *Official Gazette* at 1094 O.G. 2 on Sept. 6, 1988.

Domestic PCT fees for Chapter II, effective July 1, 1987, were announced in the *Official Gazette* at 1079 O.G. 32 on June 16, 1987.

International PCT fees were changed on July 1, 1987 due to a difference in the exchange rate of the U.S. dollar with regard to the Swiss Franc and were announced in the *Official Gazette* at 1079 O.G. 50 on June 23, 1987.

International PCT Chapter II fees which were effective July 1, 1987, were announced in the *Official Gazette* at 1079 O.G. 50 on June 23, 1987. The elimination of multiple handling fees and the supplement to the handling fee under PCT Rule 57 was announced at 1085 O.G. 34 on Dec. 22, 1987.

The withdrawal of the Japanese declaration under PCT Article 64(2)(a), concerning the requirement for a Japanese translation of the international application within 20 months from the priority date when Japan is elected under PCT Chapter II, as from Dec. 8, 1987, was announced at 1085 O.G. 34 on Dec. 22, 1987.

The withdrawal of the Danish declaration under PCT Article 64 (1)(a), that Denmark shall not be bound by PCT Chapter II, as from Nov. 1, 1988, was announced at 1095 O.G. 2 on Oct. 4, 1988.

The withdrawal of the Norwegian declaration under PCT Article 64(1)(a), that Norway shall not be bound by PCT Chapter II, as from Jan. 1, 1989, was announced at 1096 O.G. 34 on Nov. 22, 1988.

National stage fees effective July 1, 1987, for entering the U.S. Patent and Trademark Office as a designated or elected Office were changed effective July 1, 1987, and were announced in the *Official Gazette* at 1079 O.G. 32 on June 16, 1987.

Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Oct. 5, 1985. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on March 25, 1986 for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,577,346 through 4,578,820
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on March 23, 1982 for which maintenance fees due at 7 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,320,537 through 4,321,707
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

The current amounts of the maintenance fees due at 3 years and six months and 7 years and six months are set forth in 37 CFR 1.20(e), (f), (h) and (i), as amended effective Oct. 5, 1985, which are reproduced below:

37 CFR §1.20 Post-issuance fees

"(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant . . . $ 225.00"

"(f) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 8 years; the fee is due by seven years and six months after the original grant . . . $ 445.00"

"(h) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§1.9(f)) . . . . . $ 225.00
By other than a small entity . . . . . $ 450.00"

"(i) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Aug. 27, 1982, in force beyond 8 years; the fee is due by seven years and six months after the original grant:

By a small entity (§1.9(f)) . . . . . $ 445.00
By other than a small entity . . . . . $ 890.00"

The amounts of the surcharges as amended effective Oct. 5, 1985, are set forth in 37 CFR 1.20 (k) and (l) which are reproduced below:

"(k) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982 . . . . . $ 110.00"

"(l) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Aug. 27, 1982:

By a small entity (§1.9(f)) . . . . . $ 55.00
By other than a small entity . . . . . $ 110.00"

Section 1.20 paragraph (m) as amended as a result of enactment of Public Law 98–622 effective Nov. 8, 1984, is reproduced below:

"(m) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay in payment is shown to the satisfaction of the Commissioner to have been unavoidable . . . . . $ 500.00"

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Automated Patent System (APS) Text Search
Training for Public Users

In accordance with the desire of the Patent and Trademark Office (PTO) to further the interests of technology and innovation, the capability of searching patents in text form which is now available to PTO examiners will be made available to the public.

Text training classes similar to those offered to the PTO examiners will be made available to the public. These classes will consist of both traditional classroom instruction and "hands on" practice using APS terminals. All major search features of the Automated Patent System will be covered. Classes will be held at the PTO located in Arlington, Va.,

These classes will be offered *free* to the public. The classes will be divided into four sessions of three and one-half hours each. Space in each weekly session will be limited to 10 persons. A lottery-type drawing will be held to determine specific class assignments.

All completed applications received on or before Mar. 21, 1989, will be included in the first lottery for classes beginning Mar. 27, 1989. Applications received after Mar. 21, 1989, and before Apr. 28, 1989, will be included in a second lottery for class assignments. Invitations to apply for subsequent lotteries will be posted periodically as demand requires.

An application form for text search training must include *all* information shown below.

[Docket No. 90114-9014]

Patent Term Extension for Animal Drug Products

Agency: Patent and Trademark Office, Commerce
Action: Notice of Proposed Rulemaking.
Summary : This notice of proposed rulemaking sets forth changes that the Patent and Trademark Office (PTO) is proposing to the rules directed to the extension of patent

term. Pub. L. No. 100-670, signed Nov. 16, 1988, permits owners of patents relating to new animal drugs or veterinary biological products that are not biotechnology-generated to apply for extension of the terms of such patents in the same manner as owners of patents related to human drugs, medical devices, food additives, or color additives are permitted to do under 35 U.S.C. §156.

Dates: Written comments must be submitted on or before May 1, 1989. There will be no oral hearing.

Address: Address written comments to Box 8, Commissioner of Patents and Trademarks, Washington, D.C. 20231 marked to the attention of Charles E. Van Horn.

For Further Information Contact: Charles E. Van Horn by telephone at [703] 557-4035 or by mail marked to his attention and addressed to Box 8, Commissioner of Patents and Trademarks, Washington, D.C. 20231.

Supplementary Information: Pub. L. No. 100-670 has made it possible for owners of patents directed to new animal drugs and to veterinary biological products that are not biotechnology-generated to apply for extension of the term of such patents in a manner similar to the owners of patents directed to human drugs, food additives, color additives, and medical devices. A new animal drug or veterinary biological product is biotechnology-generated if it is primarily manufactured using recombinant DNA, recombinant RNA, hybridoma technology, or other processes including site specific genetic manipulation techniques. The primary purpose of the proposed rule change is to revise the present regulations contained in 37 CFR Part 1, Subpart F, to include the two additional categories of subject matter that can now form the basis of patent term extension. These regulations set forth procedures that govern the content and submission of applications for the extension of a patent term to the PTO, and procedures governing the extension determination and issuance of patent term extension certificates by the PTO.

The proposed changes also correct some minor errors in the regulations as they now exist. Section 1.740(a)(9) is proposed to be amended to strike the requirement that the information to be provided in accordance with that section must be on a new page of the application for extension of patent term. Section 1.741(a)(2) is proposed to be amended to acknowledge that regulatory review of a product may have occurred under more than one Federal statute. Section 1.785 is proposed to be amended to indicate that in cases where the terms of two or more patents are sought to be extended based upon the same regulatory review period, an applicant may elect which term to extend among eligible patents; in the absence of an election by the applicant, an appropriate extension of patent term will be given to the patent with the earliest date of issuance.

Initial guidelines directed to the preparation and filing of applications for patent term extension as authorized by Pub. L. No. 100-670 were published as "Guidelines For Extension of Patent Term For New Animal Drugs or Veterinary Biological Products Under 35 U.S.C. 156 as Amended" in the Official Gazette. 1097 *Official Gazette* 63 (Dec. 27, 1988). It is intended that those guidelines will continue in effect until the promulgation of final rules based on the proposed rule making.

The Secretary of Health and Human Services will publish regulations to give guidance concerning the handling of applications for patent term extension for a new animal drug in the Department of Health and Human Services.

The Secretary of Agriculture will publish regulations to give guidance concerning the handling of applications for patent term extension for a veterinary biological product in the U.S. Department of Agriculture (USDA).

Discussion of Specific Rules

Section 1.710(a), if amended as proposed, would specifically set forth the existing policy and practice relating to the eligibility of patents claiming a composition or formulation that includes the active ingredient. As noted in the final rule promulgation (53 Fed. Reg. 9386, Mar. 24, 1987), a patent is considered to claim the product where it claims the active ingredient per se, or claims a composition or formulation which contains the active ingredient(s) and reads on the composition or formulation approved for commercial marketing or use.

Section 1.710(b), if amended as proposed, would revise the definition of human drug product in paragraph (b)(1) to make the definition conform to Pub. L. No. 100-670. A new paragraph (b)(2) would be added to expand the definition of "product" in section 1.710(a) to include a new animal drug and a veterinary biological product, but not ones that are primarily manufactured using recombinant DNA, recombinant RNA, hybridoma technology, or other processes including site specific genetic manipulation techniques. Present paragraph (b)(2) would be renumbered as paragraph (b)(3). It should be understood that the discussion here of new animal drugs and veterinary biological products is limited to the animal drugs and products defined in Pub. L. No. 100-670.

Section 1.720, if amended as proposed, would indicate in paragraph (e)(ii) that the conditions given therein concern a patent for a product other than one recited in section 1.710(b)(2) due to the exclusion of biotechnology-generated new animal drugs and veterinary biological products in Pub. L. No. 100-670. A new paragraph (e)(iii) would be added directed to the provision in 35 U.S.C. §156(a)(5)(C), which permits a patent directed to a new animal drug or veterinary biological product to be extended based on a second or subsequent approval of the active ingredient if the patent claims the drug or product, provided the drug or product is not covered by the claims in any other patent that has been extended ("covered by the claims" means that the drug or product would infringe a claim in the other patent), if the patent term was not extended on the basis of the regulatory review period for use in non-food-producing animals, and if the second or subsequent approval was the first permitted commercial marketing or use of the drug or product for administration to a food-producing animal. All conditions must exist before eligibility could be based on this provision of the statute, which is reflected in proposed new section 1.720(e)(iii). Paragraph (f), if amended as proposed, would add a new portion of the paragraph directed to the case where eligibility is to be based on 35 U.S.C. §156(a)(5)(C). In this latter case, the application must be filed within 60 days of approval for administration to a food-producing animal.

Section 1.740(a), if amended as proposed, would have paragraph (a)(4) revised by (1) eliminating "human" as a modifier for "product," (2) adding the Public Health Service Act and the Virus-Serum-Toxin Act to the list of appropriate statutes, and (3) adding a requirement to indicate the use for which the product was approved. The first two proposed amendments are necessary to comply with terms of 35 U.S.C. §156 as amended, and the third proposed amendment is necessary to a determination of eligibility where the application is based on a second or subsequent approval of an active ingredient, but the first approval for administration to a food-producing animal. Paragraph (a)(9), if amended as proposed, would eliminate the requirement to set forth beginning on a new page the statement that the patent for which patent term extension is sought claims the approved product or a method of using or making same, and the required showing listing each applicable claim of the patent and demonstrating the manner in which each applicable claim reads on the approved product or a method of using or making same; this change is proposed because the information required by this paragraph is within the province of PTO review and there is no need to have such information recited in a readily segregable section of the application. Paragraph (a)(10), if amended as proposed, will indicate that, as appropriate, the Secretary of Health and Human Services or the Secretary of Agriculture will determine the applicable regulatory review period. Paragraph (a)(10)(i), if amended as proposed, will recite also a Product License Application as a type of application that may be recited in an application for term extension of a patent claiming a human bi-

ological product. New paragraphs (a)(10)(ii) an (a)(10)(iii) are proposed to be added to set forth the type of tests or applications that are to be considered for determination of the applicable regulatory review period for patents claiming a new animal drug or a veterinary biological product. Present paragraphs (a)(10)(ii) and (a)(10)(iii) are proposed to be renumbered as paragraphs (a)(10)(iv) and (a)(10)(v), respectively. Paragraph (a)(10)(v) is also proposed to be amended to reflect that approval of a medical device could be made through the use of a product development protocol. Paragraph (a)(13), if amended as proposed, will indicate that the duty to disclose any information material to the determination of entitlement to the extension sought applies also to the Secretary of Agriculture where the regulatory review was conducted by the USDA.

Section 1.741(a)(2), if amended as proposed, will represent an acknowledgement that regulatory review may take place under more than one Federal statute and that each appropriate statute should be listed. This proposed amendment is intended to apply to a situation where a human biological product is tested under an investigational new drug application (IND) pursuant to the Federal Food, Drug, and Cosmetic Act, but is approved under the Public Health Service Act. The amendment is not intended to encompass a situation where approval is sought for use of a particular medical device with a specific drug product. The product that forms the basis of an application for patent term extension must be either a medical device or a drug product; it cannot be a combination of those separate products. See the file history of U.S. Patent No. 4,428,744 for an example of the application of this principle.

Section 1.741(a)(5), if amended as proposed, will recognize that the Secretary of Agriculture may determine the length of the regulatory review period where the regulatory review of the product takes place at the USDA. The section is further modified to point out that a determination of the length of the regulatory review period is made under 35 U.S.C. §156(g), and not the length of the patent term extension that is made by the PTO under 35 U.S.C. §156(c).

Section 1.765(a), if amended as proposed, will recite that a duty of candor and good faith is owed to the Secretary of Agriculture in patent term extension proceedings wherein the USDA is involved.

Section 1.775, if amended as proposed, will have its title recite that the section is directed to calculating patent term extension for human drug, antibiotic drug, and human biological products. Paragraphs (a), (b), (c), and (d), if amended as proposed, will indicate that the determinations are being made for any of a human drug, an antibiotic drug, or a human biological product. Sections (c)(1) and (c)(2), if amended as proposed, will refer merely to a "product" rather than to a "human drug product" or a "drug product" in order to make the sections more clear.

Section 1.778, if added as proposed, would set forth the manner of calculation of the patent term extension for an animal drug product.

Proposed paragraph (a) would specify that the extension will run from the original expiration date of the patent as shortened by any terminal disclaimer.

Proposed paragraph (b) of section 1.778 would provide that the patent term would be extended by the regulatory review period for the product but reduced, where appropriate, by the time periods provided in proposed paragraph (d).

Proposed paragraph (c) defines how the regulatory review period is to be calculated. The period is determined by counting

(1) the number of days in the period beginning on the earlier of the dates a major health or environmental effects test was initiated on the drug or an exemption under subsection (j) of section 512 of the Federal Food, Drug, and Cosmetic Act became effective for the drug and ending on the date an application was initially submitted for the drug under section 512 of the Federal Food, Drug, and Cosmetic Act; and

(2) the number of days in the period beginning on the date the application was initially submitted for the approved drug under subsection (b) of section 512 of the Federal Food, Drug, and Cosmetic Act and ending on the date the application was approved under the section.

The added total of the days determined in subparagraphs (c)(1) and (c)(2) constitutes the regulatory review period, which is then reduced, where appropriate, by the time periods described in proposed paragraph (d).

Proposed paragraph (d) of section 1.778 would revise the term of the patent extension by indicating that

(1) the time period determined from proposed paragraph (c) would be reduced, where appropriate, by

(i) the number of days in the period of proposed paragraphs (c)(1) and (c)(2) of section 1.778 that were before the date on which the patent issued;
(ii) the number of days in proposed paragraphs (c)(1) and (c)(2) of section 1.778 during which it is determined under 35 U.S.C. 156(d)(2)(B) that applicant did not act with due diligence; and
(iii) the number of days equal to one-half the number of days remaining in proposed paragraph (c)(1) after the paragraph (c)(1) determination has been reduced in accordance with proposed paragraphs (d)(1)(i) and (d)(1)(ii) of section 1.778 (half days to be ignored for subtraction purposes);

(2) adding the number of days determined in proposed paragraph (d)(1) to the original expiration date of the patent as shortened by any terminal disclaimer;
(3) adding 14 years to the date of approval of the application under section 512 of the Federal Food, Drug, and Cosmetic Act;
(4) comparing the dates obtained from paragraphs (d)(2) and (d)(3) with each other and selecting the earlier date;
(5) if the original patent issued after Nov. 16, 1988, by—

(i) adding 5 years to the original expiration date of the patent as shortened by any terminal disclaimer; and
(ii) comparing the dates obtained from paragraphs (d)(4) and (d)(5)(i) with each other and selecting the earlier date;

(6) if the original patent issued before Nov. 16, 1988, and

(i) if no major health or environmental effects test on the drug was initiated and no request was submitted for an exemption under subsection (j) of section 512 of the Federal Food, Drug, and Cosmetic Act before Nov. 16, 1988, by—

(A) adding 5 years to the original expiration date of the patent as shortened by any terminal disclaimer; and
(B) comparing the dates obtained pursuant to paragraphs (d)(4) and (d)(6)(i)(A) with each other and selecting the earlier date; or

(ii) if a major health or environmental effects test was initiated or a request for an exemption under subsection (j) of section 512 of the Federal Food, Drug, and Cosmetic Act was submitted before Nov. 16, 1988, and the application for commercial marketing or use of the drug was not approved before Nov. 16, 1988, by—

(A) adding 3 years to the original expiration date of the patent as shortened by any terminal disclaimer; and
(B) comparing the dates obtained from paragraphs (d)(4) and (d)(6)(ii)(A) with each other and selecting the earlier date.

Section 1.779, if added as proposed, would set forth the manner of calculation of the patent term extension for a veterinary biological product.

Proposed paragraph (a) would specify that the extension will run from the original expiration date of the patent as shortened by any terminal disclaimer.

Proposed paragraph (b) of section 1.779 would provide that the patent term would be extended by the regulatory review period for the product but reduced, where appropriate, by the time periods provided in proposed paragraph (d).

Proposed paragraph (c) defines how the regulatory review period is to be calculated. The period is determined by counting

(1) the number of days in the period beginning on the date the authority to prepare an experimental biological product under the Virus-Serum-Toxin Act became effective and ending on the date an application for a license was submitted under the Virus-Serum-Toxin Act; and
(2) the number of days in the period beginning on the date an application for a license was initially submitted under the Virus-Serum-Toxin Act and ending on the date a license was issued.

The added total of the days determined in paragraphs (c)(1) and (c)(2) constitutes the regulatory review period, which is then reduced, where appropriate, by the time periods described in proposed paragraph (d).

Paragraph (d) of proposed section 1.779 would define the term of the patent extension by indicating that

(1) the time period determined from proposed paragraph (c) would be reduced, where appropriate, by

(i) the number of days in the periods of proposed paragraphs (c)(1) and (c)(2) that were on and before the date on which the patent issued;
(ii) the number of days in the periods of proposed paragraphs (c)(1) and (c)(2) during which it is determined under 35 U.S.C. 156(d)(2)(B) that the applicant did not act with due diligence; and
(iii) one-half the number of days remaining in the period defined by proposed paragraph (c)(1) after that period is reduced in accordance with paragraphs (d)(1)(i) and (d)(ii) (half days being ignored for purposes of subtraction);

(2) adding the number of days determined in paragraph (d)(1) to the original term of the patent as shortened by any terminal disclaimer;
(3) adding 14 years to the date of the issuance of a license under the Virus-Serum-Toxin Act;
(4) comparing the dates for the ends of the periods obtained pursuant to paragraphs (d)(2) and (d)(3) and selecting the earlier date;
(5) if the patent was issued after Nov. 16, 1988, by—

(i) adding 5 years to the original expiration date of the patent as shortened by any terminal disclaimer; and
(ii) comparing the dates obtained pursuant to paragraphs (d)(4) and (d)(5)(i) with each other and selecting the earlier date;

(6) if the original patent issued before Nov. 16, 1988, and

(i) if no request for the authority to prepare an experimental biological product under the Virus-Serum-Toxin Act was submitted before Nov. 16, 1988, by—

(A) adding 5 years to the original expiration date of the patent as shortened by any terminal disclaimer; and
(B) comparing the dates obtained pursuant to paragraphs (d)(4) and (d)(6)(i)(A) with each other and selecting the earlier date; or

(ii) if a request for the authority to prepare an experimental biological product under the Virus-Serum-Toxin Act was submitted before Nov. 16, 1988 and the commercial marketing or use of the product was not approved before Nov. 16, 1988, by—

(A) adding 3 years to the original expiration date of the patent as shortened by any terminal disclaimer; and
(B) comparing the dates obtained pursuant to paragraphs (d)(4) and (d)(6)(ii)(A) and selecting the earlier date.

Section 1.785(b), if amended as proposed, will indicate that, in those instances where an applicant is seeking patent term extension for two or more patents based upon the same regulatory review period, the applicant will have the right to elect which patent is to have its term extended. In the absence of an election by applicant, the Commissioner will extend that patent having the earliest date of issuance.

Other Considerations

The proposed rule change is in conformity with the requirements of the Regulatory Flexibility Act (Pub. L. No. 96-354), Executive Orders 12291 and 12612, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration that the proposed rule change will not have a significant adverse economic impact on a substantial number of small entities [Regulatory Flexibility Act, Pub. L. 96-354]. The proposed rule change setting forth procedures allowing owners of patents directed to new animal drugs and veterinary biological products to apply for extension of patent term would not be expected to result in any adverse economic impact on small entities because patented drugs are generally not commercialized by small entities.

The PTO has determined that this rule change is not a major rule under Executive Order 12291. The annual effect to the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individual industries, federal, state, or local government agencies, or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The PTO has also determined that this notice has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

The proposed rule contains a collection of information subject to the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.* which has been submitted to the Office of Management and Budget for approval. Preparation of an application for patent term extension is estimated to take approximately 60 hours, including time for reviewing instructions, gathering and maintaining data needed and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Office of Management and Organization, Patent and Trademark Office, Washington, D.C. 20231; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503. List of Subjects in 37 CFR Part 1, Subpart F

Administrative practice and procedure, Authority delegations (government agencies), Conflict of interest, Courts, Inventions and patents, Lawyers

For the reasons given in the preamble and pursuant to the authority granted to the Commissioner of Patents

and Trademarks by 35 U.S.C. 6 and 156, the PTO proposes to amend Title 37 of the Code of Federal Regulations as set forth below:

It is proposed to amend 37 CFR Part 1, Subpart F, as follows wherein removals are indicated by brackets and additions by arrows:

SUBPART F—EXTENSION OF PATENT TERM

1. The authority citation for 37 CFR Part 1, Subpart F, would continue to read as follows:

Authority: 35 U.S.C. 6 and 156.

2. Section 1.710 is proposed to be amended by revising paragraph (a), paragraph (b)(1), adding new paragraph (b)(2), and renumbering present paragraph (b)(2) as paragraph (b)(3) to read as follows:

§1.710 Patents subject to extension of the patent term.

(a) A patent is eligible for extension of the patent term if the patent claims a product as defined in paragraph (b) of this section, ►either alone or in combination with other ingredients that read on a composition that received permission for commercial marketing or use,◄ or a method of using such a product, or a method of manufacturing such a product, and meets all other conditions and requirements of this subpart.

(b) The term "product" referred to in paragraph (a) of this section means-

(1) [a human drug product which means] the active ingredient of a new ►human◄ drug, antibiotic drug, or human biological product (as those terms are used in the Federal Food, Drug, and Cosmetic Act and the Public Health Service Act) including any salt or ester of the active ingredient, as a single entity or in combination with another active ingredient; or

►(2) the active ingredient of a new animal drug or veterinary biological product (as those terms are used in the Federal Food, Drug, and Cosmetic Act and the Virus-Serum-Toxin Act) that is not primarily manufactured using recombinant DNA, recombinant RNA, hybridoma technology, or other processes including site specific genetic manipulation techniques, including any salt or ester of the active ingredient, as a single entity or in combination with another active ingredient; or◄

[(2)] ►(3)◄ any medical device, food additive, or color additive subject to regulation under the Federal Food, Drug, and Cosmetic Act.

3. Section 1.720 is proposed to be amended by revising paragraphs (e)(ii) and (f) and adding paragraph (e)(iii) to read as follows:

§1.720 Conditions for extension of patent term.

* * * * *

(e) the product has received permission for commercial marketing or use and—

* * * * *

(2) in the case of a patent ►other than one directed to subject matter within 37 CFR §1.710(b)(2)◄ claiming a method of manufacturing the product [which] ►that◄ primarily uses recombinant DNA technology in the manufacture of the product, the permission for the commercial marketing or use is the first received permission for the commercial marketing or use of a product manufactured under the process claimed in the patent, ►or◄

►(3) in the case of a patent claiming a new animal drug or a veterinary biological product that is not covered by the claims in any other patent that has been extended, and has received permission for the commercial marketing or use in non-food-producing animals and in food-producing animals, and was not extended on the basis of the regulatory review period for use in non-food-producing animals, the permission for the commercial marketing or use of the drug or product after the regulatory review period for use in food-producing animals is the first permitted commercial marketing or use of the drug or product for administration to a food-producing animal.◄

(f) the application is submitted within the sixty day period beginning on the date the product first received permission for commercial marketing or use under the provisions of law under which the applicable regulatory review period occurred; or in the case of a patent claiming a method of manufacturing the product which primarily uses recombinant DNA technology in the manufacture of the product, the application for extension is submitted within the sixty day period beginning on the date of the first permitted commercial marketing or use of a product manufactured under the process claimed in the patent; ►or in the case of a patent that claims a new animal drug or a veterinary biological product that is not covered by the claims in any other patent that has been extended, and has received permission for the commercial marketing or use in non-food-producing animals, the application for extension is submitted within the sixty day period beginning on the date of the first permitted commercial marketing or use of the drug or product for administration to a food-producing animal;◄

4. Section 1.740 is proposed to be amended by revising paragraphs (a)(4), (a)(9), (a)(10)(i) and (a)(13), adding paragraphs (a)(10)(ii) and (a)(10)(iii), and renumbering present paragraphs (a)(10)(ii) and (a)(10)(iii) as (a)(10)(iv) and (a)(10)(v), respectively, to read as follows:

§1.740 Application for extension of patent term.

(a) An application for extension of patent term must be made in writing to the Commissioner of Patents and Trademarks. A formal application for the extension of patent term shall include:

* * * * *

(4) in the case of a [human] drug product, an identification of each active ingredient in the product and as to each active ingredient, a statement that it has not been previously approved for commercial marketing or use under the Federal Food, Drug, and Cosmetic Act, ►the Public Health Service Act, or the Virus-Serum-Toxin Act,◄ or a statement of when the active ingredient was approved for commercial marketing or use (either alone or in combination with other active ingredients), ►the use for which it was approved,◄ and the provision of law under which it was approved.

* * * * *

(9) a statement [beginning on a new page] that the patent claims the approved product or a method of using or manufacturing the approved product, and a showing which lists each applicable patent claim and demonstrates the manner in which each applicable patent claim reads on the approved product or method of using or manufacturing the approved product;

(10) a statement beginning on a new page of the relevant dates and information pursuant to 35 USC 156(g) in order to enable the Secretary of Health and Human Services ►or the Secretary of Agriculture, as appropriate,◄ to determine the applicable regulatory review period as follows:

(i) for a patent claiming a human drug ►, antibiotic, or human biological◄ product, the effective date of the investigational new drug (IND) application and the IND number; the date on which a new drug application (NDA) ►or a Product License Application (PLA)◄ was initially submitted and the NDA ►or PLA number◄ and the date on which the NDA was approved ►or the Product License issued◄;

►(ii) for a patent claiming a new animal drug, the date a major health or environmental effects test on the drug was initiated and any available substantiation of the date or the date of a exemption under subsection (j) of section 512 of the Federal Food, Drug, and Cosmetic Act became effective for such animal drug; the date on which a new animal drug application (NADA) was initially submitted and the NADA number; and the date on which the NADA was approved;

(iii)for a patent claiming a veterinary biological product, the date the authority to prepare an experimental biological product under the Virus-Serum-Toxin Act became effective; the date an application for a license was submitted under the Virus-Serum-Toxin Act; and the date the license issued;◄

[ii] ►(iv)◄ for a patent that claims a food or color additive, the date a major health or environmental effects test on the additive was initiated and any available substantiation of that date; the date on which a petition for product approval under the Federal Food, Drug, and Cosmetic Act was initially submitted and the petition number; and the date on which the FDA published the Federal Register notice listing the additive for use;

[iii] ►(v)◄ for a patent that claims a medical device, the effective date of the investigational device exemption (IDE) and the IDE number, if applicable, or the date on which the applicant began the first clinical investigation involving the device if no IDE was submitted and any available substantiation of that date; the date on which the application for product approval ►or notice of completion of a product development protocol◄ under section 515 of the Federal Food, Drug, and Cosmetic Act was initially submitted and the number of the application ►or protocol◄; and the date on which the application was approved ►or the protocol declared to be completed◄.

* * * * *

(13) a statement that applicant acknowledges a duty to disclose to the Commissioner of Patents and Trademarks and the Secretary of Health and Human Services ►or the Secretary of Agriculture◄ any information which is material to the determination of entitlement to the extension sought (see §1.765);

* * * * *

5. Section 1.741 is proposed to be amended by revising paragraphs (a)(2) and (a)(5) to read as follows:

§1.741 Filing date of the application.

(a) The filing date of the application for extension of patent term is the date on which a complete application is received in the Patent and Trademark Office or filed pursuant to the "Certificate of Mailing" provisions of 37 CFR 1.8 or "Express Mail" provisions of 37 CFR 1.10.

* * * * *

(2) An identification of [the] ►each◄ Federal statute under which regulatory review occurred.

* * * * *

(5) Sufficient information to enable the Commissioner to determine under 35 U.S.C. 156 subsections (a) and (b) the eligibility of a patent for extension and the rights that will be derived from the extension and information to enable the Commissioner and the Secretary of Health and Human Services ►or the Secretary of Agriculture◄ to determine the ►length of the regulatory review◄ period [of the extension]; and

* * * * *

6. Section 1.765 is proposed to be amended by revising paragraph (a) to read as follows:

§1.765 Duty of disclosure in patent term extension proceedings.

(a) A duty of candor and good faith toward the Patent and Trademark Office and the Secretary of Health and Human Services ►or the Secretary of Agriculture◄ rests on the patent owner or its agent, on each attorney or agent who represents the patent owner and on every other individual who is substantively involved on behalf of the patent owner in a patent term extension proceeding. All such individuals who are aware, or become aware, of material information adverse to a determination of entitlement to the extension sought, which has not been previously made of record in the patent term extension proceeding must bring such information to the attention of the Office or the Secretary, as appropriate, in accordance with paragraph (b) of this section, as soon as it is practical to do so after the individual becomes aware of the information. Information is material where there is a substantial likelihood that the Office or the Secretary would consider it important in determinations to be made in the patent term extension proceeding.

7. Section 1.775 is proposed to be amended by revising the title and paragraphs (a), (b), (c) introductory text, (c)(1), (c)(2), and (d) introductory text to read as follows:

§1.775 Calculation of patent term extension for a human drug►, antibiotic drug or human biological◄ product.

(a) If a determination is made pursuant to §1.750 that a patent for a human drug ►, antibiotic drug or human biological◄ product is eligible for extension, the term shall be extended by the time as calculated in days in the manner indicated by this section. The patent term extension will run from the original expiration date of the patent or any earlier date set by terminal disclaimer (§1.321).

(b) The term of the patent for a human drug►, antibiotic drug or human biological◄ product will be extended by the length of the regulatory review period for the product as determined by the Secretary of Health and Human Services, reduced as appropriate pursuant to paragraphs (d)(1) through (d)(6) of this section.

(c) The length of the regulatory review period for a human drug►, antibiotic drug or human biological◄ product will be determined by the Secretary of Health and Human Services. Under 35 U.S.C. 156(g)(1)(B), it is the sum of —

(1) The number of days in the period beginning on the date an exemption under subsection (i) of section 505 or subsection (d) of section 507 of the Federal Food, Drug, and Cosmetic Act became effective for the approved [human drug] product and ending on the date an application was initially submitted for such [drug] product under those sections or under section 351 of the Public Health Service Act; and

(2) The number of days in the period beginning on the date the application was initially submitted for the

approved [human drug] product under section 351 of the Public Health Service Act, subsection (b) of section 505 or,16
approved [human drproduct will be determined by —

8. Section 1.778 is proposed to be added as follows:

►*§1.778 Calculation of patent term extension for an animal drug product.*

(a) If a determination is made pursuant to §1.750 that a patent for an animal drug is eligible for extension, the term shall be extended by the time as calculated in days in the manner indicated by this section. The patent term extension will run from the original expiration date of the patent or any earlier date set by terminal disclaimer (§1.321).

(b) The term of the patent for an animal drug will be extended by the length of the regulatory review period for the drug as determined by the Secretary of Health and Human Services, reduced as appropriate pursuant to paragraphs (d)(1) through (d)(6) of this section.

(c) The length of the regulatory review period for an animal drug will be determined by the Secretary of Health and Human Services. Under 35 U.S.C. 156(g)(4)(B), it is the sum of—

(1) The number of days in the period beginning on the earlier of the date a major health or environmental effects test on the drug was initiated or the date an exemption under subsection (j) of section 512 of the Federal Food, Drug, and Cosmetic Act became effective for the approved animal drug and ending on the date an application was initially submitted for such animal drug under section 512 of the Federal Food, Drug, and Cosmetic Act; and
(2) The number of days in the period beginning on the date the application was initially submitted for the approved animal drug under subsection (b) of section 512 of the Federal Food, Drug, and Cosmetic Act and ending on the date such application was approved under such section.

(d) The term of the patent as extended for an animal drug will be determined by—

(1) Subtracting from the number of days determined by the Secretary of Health and Human Services to be in the regulatory review period:

(i) The number of days in the periods of paragraphs (c)(1) and (c)(2)) of this section that were on and before the date on which the patent issued;
(ii) The number of days in the periods of paragraphs (c)(1) and (c)(2) of this section during which it is determined under 35 U.S.C. 156(d)(2)(B) by the Secretary of Health and Human Services that applicant did not act with due diligence;
(iii) One-half the number of days remaining in the period defined by paragraph (c)(1) of this section after that period is reduced in accordance with paragraphs (d)(1)(i) and (ii) of this section; half days will be ignored for purposes of subtraction;

(2) By adding the number of days determined in paragraph (d)(1) of this section to the original term of the patent as shortened by any terminal disclaimer;
(3) By adding 14 years to the date of approval of the application under section 512 of the Federal Food, Drug, and Cosmetic Act;
(4) By comparing the dates for the ends of the periods obtained pursuant to paragraphs (d)(2) and (d)(3) of this section with each other and selecting the earlier date;
(5) If the original patent was issued after Nov. 16, 1988, by—

(i) Adding 5 years to the original expiration date of the patent or any earlier date set by terminal disclaimer; and
(ii) Comparing the dates obtained pursuant to paragraphs (d)(4) and (d)(5)(i) of this section with each other and selecting the earlier date;

(6) If the original patent was issued before Nov. 16, 1988 and

(i) If no major health or environmental effects test on the drug was initiated and no request was submitted for an exemption under subsection (j) of section 512 of the Federal Food, Drug, and Cosmetic Act before Nov. 16, 1988, by—

(A) Adding 5 years to the original expiration date of the patent or earlier date set by terminal disclaimer; and
(B) Comparing the dates obtained pursuant to paragraphs (d)(4) and (d)(6)(i)(A) of this section with each other and selecting the earlier date; or

(ii) If a major health or environmental effects test was initiated or a request for an exemption under subsection (j) of section 512 of the Federal Food, Drug, and Cosmetic Act was submitted before Nov. 16, 1988, and the application for commercial marketing or use of the animal drug was not approved before Nov. 16, 1988, by—

(A) Adding 3 years to the original expiration date of the patent or earlier date set by terminal disclaimer, and
(B) Comparing the dates obtained pursuant to paragraphs (d)(4) and (d)(6)(ii)(A) of this section with each other and selecting the earlier date.◄

9. Section 1.779 is proposed to be added to read as follows:

►*§1.779 Calculation of patent term extension for a veterinary biological product.*

(a) If a determination is made pursuant to §1.750 that a patent for a veterinary biological product is eligible for extension, the term shall be extended by the time as calculated in days in the manner indicated by this section. The patent term extension will run from the original expiration date of the patent or any earlier date set by terminal disclaimer (§1.321).

(b) The term of the patent for a veterinary biological product will be extended by the length of the regulatory review period for the product as determined by the Secretary of Agriculture, reduced as appropriate pursuant to paragraphs (d)(1) through (d)(6) of this section.

(c) The length of the regulatory review period for a veterinary biological product will be determined by the Secretary of Agriculture. Under 35 U.S.C. 156(g)(5)(B), it is the sum of—

(1) The number of days in the period beginning on the date the authority to prepare an experimental biological product under the Virus-Serum-Toxin Act became effective and ending on the date an application for a license was submitted under the Virus-Serum-Toxin Act; and
(2) The number of days in the period beginning on the date an application for a license was initially submitted for approval under the Virus-Serum-Toxin Act and ending on the date such license was issued.

(d) The term of the patent as extended for a veterinary biological product will be determined by—

(1) Subtracting from the number of days determined by the Secretary of Agriculture to be in the regulatory review period:

(i) The number of days in the periods of paragraphs (c)(1) and (c)(2) of this section that were on and before the date on which the patent issued;
(ii) The number of days in the periods or paragraphs (c)(1) and (c)(2) of this section during which it is determined under 35 U.S.C. 156(d)(2)(B) by the Secretary of Agriculture that applicant did not act with due diligence;
(iii) One-half the number of days remaining in the period defined by paragraph (c)(1) of this section after that period is reduced in accordance with paragraphs (d)(1)(i) and (ii) of this section; half days will be ignored for purposes of subtraction;

(2) By adding the number of days determined in paragraph (d)(1) of this section to the original term of the patent as shortened by any terminal disclaimer;
(3) By adding 14 years to the date of the issuance of a license under the Virus-Serum-Toxin Act;
(4) By comparing the dates for the ends of the periods obtained pursuant to paragraphs (d)(2) and (d)(3) of this section with each other and selecting the earlier date;
(5) If the original patent was issued after Nov. 16, 1988, by—

(i) Adding 5 years to the original expiration date of the patent or any earlier date set by terminal disclaimer; and
(ii) Comparing the dates obtained pursuant to paragraphs (d)(4) and (d)(5)(i) of this section with each other and selecting the earlier date;

(6) If the original patent was issued before Nov. 16, 1988 and

(i) If no request for the authority to prepare an experimental biological product under the Virus-Serum-Toxin Act was submitted before Nov. 16, 1988, by—

(A) Adding 5 years to the original expiration date of the patent or earlier date set by terminal disclaimer; and
(B) Comparing the dates obtained pursuant to paragraphs (d)(4) and (d)(6)(i)(A) of this section with each other and selecting the earlier date; or

(ii) If a request for the authority to prepare an experimental biological product under the Virus-Serum-Toxin Act was submitted before Nov. 16, 1988, and the commercial marketing or use of the product was not approved before Nov. 16, 1988, by—

(A) Adding 3 years to the original expiration date of the patent or earlier date set by terminal disclaimer; and
(B) Comparing the dates obtained pursuant to paragraphs (d)(4) and d)(6)(ii)(A) of this section with each other and selecting the earlier date.◄

10. Section 1.785 is proposed to be amended to revise paragraph (b) to read as follows:

§1.785 Multiple applications for extension of terms of the same patent or of different patents for the same regulatory review period for a product.

* * * * *

(b) If more than one application for extension is filed by a single applicant which seeks the extension of the term of two or more patents based upon the same regulatory review period, and the applications are otherwise eligible for extension pursuant to the requirement of this subpart, ►in the absence of an election by applicant,◄ the certificate of extension of patent term, if appropriate, will be issued upon the application for extension of the patent term having the earliest date of issuance of those patents for which extension is sought.

37 CFR PART 2

[Docket No. 81268-8268]

Amendments of Trademark Rules Governing Inter Partes Proceedings; Miscellaneous Amendments of Other Trademark Rules

Agency: Patent and Trademark Office, Commerce.
Action: Proposed rulemaking.
Summary: The Patent and Trademark Office proposes amendments to the rules of practice in trademark cases to revise and/or codify procedures for the examination of applications; appeals from final refusals of registration; and the institution and conduct of trademark interference, concurrent use, opposition, and cancellation proceedings. The proposed amendments will assist the orderly and prompt resolution of issues in proceedings before the Trademark Trial and Appeal Board.
Date: Written comments must be submitted on or before May 1, 1989.
Address: Address written comments to Box 5, Trademark Trial and Appeal Board, Commissioner of Patents and Trademarks, Washington, D.C. 20231, marked to the attention of Janet E. Rice.

Written comments will be available for public inspection in Room 1008, Crystal Sq. 5, 1755 Jefferson Davis Hwy., Arlington, Va. 22202.
For Further Information Contact: Janet E. Rice by telephone at (703) 557-3551 or by mail marked to her attention and addressed to Box 5, Trademark Trial and Appeal Board, Commissioner of Patents and Trademarks, Washington, D.C. 20231.
Supplementary Information: The Patent and Trademark Office (PTO) is proposing amendments to the rules of practice in trademark cases to revise, simplify, remove, or clarify existing rules or to codify in rules certain practices which are currently in effect. The rules involved include those relating to the requirements for concurrent use applications; the abandonment of trademark applications; appeals to the Trademark Trial and Appeal Board (Board) from the final refusal of registration in ex parte applications; the institution and conduct of interference, concurrent use, opposition, and cancellation proceedings before the Board; review by civil action of a decision of the Board; and allowing an assignee to take action with respect to the assigned application or registration.

Discussion of Specific Sections Proposed to be Changed:

In this discussion, "Patent and Trademark Office" is abbreviated as "PTO" and "Trademark Trial and Appeal Board" is abbreviated as "Board."

Section 2.42(a) is proposed to be amended by removing the designation "(a)" [because §2.42(b) is proposed to be removed] and by deleting the qualifying phrase "to the extent of his knowledge" from the requirement that an applicant for registration as a lawful concurrent user state in the application the area, the goods, and the mode of use for which registration is sought. This information obviously is within the knowledge of the applicant and is essential for purposes of examination and publication.

Section 2.42(b), which requires that the verification or declaration in an application for registration as a lawful

concurrent user "be made with the stated exceptions," is proposed to be removed to simplify practice. The paragraph has been construed, in the form for an application for registration based on concurrent use, as requiring that that portion of the verification or declaration which normally reads, "to the best of his/her knowledge and belief no other person, firm, corporation or association has the right to use said mark in commerce," also include, after the word "association," the additional phrase "other than specified in the application." Because most applicants and/or their attorneys do not realize that this is the import of the paragraph, the examination process is often prolonged. Moreover, an applicant for registration based on concurrent use is required to list, in the statement portion of the application, the exceptions to applicant's right to exclusive use, so that it is clear that the verification or declaration is being made, in effect, with the stated exceptions. Therefore, the requirement for a verification or declaration which differs in form from that of an application for a geographically unrestricted registration is unnecessary.

Section 2.68 is proposed to be amended to indicate that the section applies only to the abandonment of an application during the ex parte prosecution thereof, i.e., an application not involved in an inter partes proceeding before the Board. [The abandonment of an application which is involved in an inter partes proceeding before the Board is governed by §2.135.]

Section 2.91 is proposed to be amended by changing the title of the section from "Interferences." to "Declaration of interference." The proposed amendment is one of a series of amendments, involving §§2.91-2.93, intended to distinguish between the "declaration" of an interference by the Commissioner upon petition and the subsequent "institution" of the interference by the Board. *See* Sections 1208.04 and 1208.05 of the *Trademark Manual of Examining Procedure*.

Section 2.92 is proposed to be revised to specifically indicate what must happen before an interference which has been "declared" by the Commissioner upon petition can be "instituted" by the Board.

Section 2.93 is proposed to be amended by, inter alia, changing the title of the section from "Declaration of interference." to "Institution of interference.", and by revising the text of the paragraph to harmonize with §§2.91 and 2.92, as proposed to be amended.

Section 2.102(c) is proposed to be amended to change the specified time period from "120 days" to "four months". The proposed "four months" time period would be easier to calculate than "120 days."

Section 2.104 is proposed to be amended to redesignated the present paragraph as "(a)" and to add a new paragraph, designated "(b)," codifying the practice that oppositions to different applications owned by the same party may be joined in a consolidated opposition, when appropriate, provided that the required fees are paid. The proposed new paragraph parallels present §2.112(b).

Section 2.106(b)(1) is proposed to be amended to include a short description of the content requirements for an answer to an opposition, just as present §2.104 describes the content requirements for an opposition. The proposed amendment parallels a proposed amendment to §2.114(b)(1) concerning answers to petitions for cancellation. The proposed description of the content requirements for an answer is modeled after portions of Rule 8 of the Federal Rules of Civil Procedure.

Section 2.106(c) is proposed to be amended to codify the practice that an applicant's written consent to the withdrawal of an opposition after answer may be signed by the applicant or by the applicant's attorney or other authorized representative. The proposed amendment parallels proposed amendments to §§2.114(c), 2.134(a), and 2.135.

Section 2.112(a) is proposed to be revised to delete the requirement that a petitioner indicate in the petition "the respondent party to whom notification shall be sent," and to substitute a requirement that the petitioner indicate, to the best of the petitioner's knowledge, "the name and address of the current owner of the registration." The purposes of the proposed revision are to provide the Board with information relating to the identity of the current owner of the registration sought to be cancelled, so that the Board can serve a copy of the petition on that party, and to remove any implication that the petitioner is permitted to designate who shall be the respondent. See also, in this regard, the proposed amendment to §2.113.

Section 2.113 is proposed to be revised to codify the practice that the respondent shall be the party shown by the records of the PTO to be the current owner of the registration sought to be cancelled, except that the Board, in its discretion, may join or substitute as respondent a party who makes a showing of a current ownership interest in the registration. *See generally Gold Eagle Products Co.* v. *National Dynamics Corp.*, 193 USPQ 109 (TTAB 1976).

Section 2.114(b)(1) is proposed to be amended to include a short description of the content requirements for an answer to a petition for cancellation, just as present §2.112(a) describes the content requirements for a petition for cancellation. The proposed amendment parallels the proposed amendment to §2.106(b)(1) concerning answers to oppositions.

Section 2.114(c) is proposed to be amended to codify the practice that a registrant's written consent to the withdrawal of a petition for cancellation after answer may be signed by the registrant or by the registrant's attorney or other authorized representative. The proposed amendment parallels proposed amendments to §§2.106(c), 2.134(a), and 2.135.

Section 2.119 is proposed to be amended to change the title thereof from "Service of papers." to "Service and signing of papers.", so that the section title will describe the contents of the section as it is proposed to be amended by the revision of paragraphs (b) and (c), and by the addition of two new paragraphs, designated "(d)" and "(e)."

Section 2.119(b), which pertains to service of papers, is proposed to be revised to provide for two additional methods of service, namely, transmission by the "Express Mail" service of the United States Postal Service and transmission by overnight courier.

Section 2.119(c) is proposed to be revised to specify that whenever a party is required to take some action within a prescribed period after the service of a paper upon such party by another party, and the paper is served by first-class mail, "Express Mail," or overnight courier, 5 days shall be added to the prescribed period. The proposed amendments to this paragraph and to paragraph (b) codify existing practice.

Section 2.119(d) is proposed to be added to require that a party to an inter partes proceeding before the Board who is not domiciled in the United States, and is not represented by an attorney or other authorized representative located in the United States, appoint a domestic representative on whom may be served notices or process in the proceeding. The purpose of the proposed paragraph is to facilitate the service of papers on foreign parties not represented by domestic counsel in proceedings before the Board.

Section 2.119(e) is proposed to be added to provide that every paper filed in an inter partes proceeding before the Board must be signed by the party filing it, or by the party's attorney or other authorized representative, but that an unsigned paper will not be refused consideration if a signed copy is submitted to the PTO within the time limit set in the notification of this defect by the Office. The purpose of the proposed amendment is to simplify practice, and to eliminate the necessity for a petition to the Commissioner in the case of an unsigned notice of opposition.

Section 2.120(a) is proposed to be amended to include a new sentence specifying that the opening of discovery is governed by the Federal Rules of Civil Procedure. The proposed amendment is a codification of current practice, which, in turn, finds its basis in the first sentence of the present paragraph. *See in general* Saul Lefkowitz and Janet E. Rice, *Adversary Proceedings Before the Trademark Trial and Appeal Board*, 75 TMR 323, 381-382 (1985).

Section 2.120(d) is proposed to be amended to change the title thereof from "Request for production." to "Interrogatories; request for production."; to redesignate the present paragraph as "(2)"; and to add a new paragraph, designated "(1)." The proposed new paragraph limits the number of interrogatories a party may serve upon another party to twenty-five, not counting subparts (which must be relevant, and reasonable in number), with additional interrogatories being allowed by the Board, in its discretion, only upon motion to the Board showing extraordinary circumstances, or upon stipulation of the parties. The purpose of the proposed amendment is to discourage parties from using written interrogatories for purposes of harassment, as exemplified in the case of *C. H. Stuart Inc.* v. *S. S. Sarna*, 212 USPQ 386 (TTAB 1980). The proposed amendment is believed to be in general harmony with corresponding local rules now prevalent in the federal district courts.

Section 2.120(g) is proposed to be amended to change the title from "Failure to comply with order." to "Sanctions."; to redesignate the present paragraph as "(1)"; and to add a new paragraph, designated "(2)," providing that if a party fails to attend his or her discovery deposition, after being served with proper notice thereof, or fails to respond to a set of interrogatories or to a set of requests for production of documents and things, and such party or the party's attorney informs the party seeking discovery that he or she will not respond thereto, the Board may make any appropriate order by way of sanctions. The purpose of the proposed amendment is to eliminate the expense and delay resulting from the present practice, embodied in present paragraphs (e) and (g) of §2.120, that in situations of the type described in the proposed paragraph, a motion to compel must be filed and granted and the resulting order violated before the party seeking discovery may move for sanctions. The proposed practice is in harmony with Rule 37(d) of the Federal Rules of Civil Procedure.

Section 2.120(j)(3) is proposed to be amended to redesignate the present paragraph as "(i)" and to add a new paragraph, designated "(ii)." The proposed new paragraph codifies the existing practice, exemplified in cases such as *Jeanne-Marc, Inc.* v. *Cluett, Peabody & Co. Inc.*, 221 USPQ 58 (TTAB 1984); *Autac Inc.* v. *Viking Industries, Inc.*, 199 USPQ 367 (TTAB 1978); Harvey Hubbell, Inc. v. *Red Rope Industries, Inc.*, 191 USPQ 119 (TTAB 1976); and *MRI Systems Corp.* v. *Wesley-Jessen Inc.*, 189 USPQ 214 (TTAB 1975), that a party who has obtained documents from another party, pursuant to a request for production under Rule 34 of the Federal Rules of Civil Procedure, may not make the produced documents of record by notice of reliance alone, except to the extent that the documents fall within the provisions of §2.122(e). The reason for the practice is that documents so obtained generally suffer from a lack of proper authentication, unless they are of the self-authenticating type admissible by notice of reliance under §2.122(e).

Section 2.120(j)(4), which presently provides, in effect, that if an appropriate party files a notice of reliance upon only part of a discovery deposition, an adverse party may file a notice of reliance upon any other part of the deposition which should in fairness be considered so as to make not misleading what was offered by the submitting party, is proposed to be amended to require that the notice of reliance filed by the adverse party be supported by a written statement explaining why he or she needs to rely upon each of the additional parts listed in his or her notice, failing which the Board, in its discretion, may refuse to consider the additional parts. The proposed amendment represents a codification of current practice. Cf. *Alabama Board of Trustees* v. *BAMA-Werke Curt Baumann*, 231 USPQ 408, 409 (TTAB 1986), and *Holiday Inns, Inc.* v. *Monolith Enterprises*, 212 USPQ 949, 950-951 (TTAB 1981).

Section 2.120(j)(5), which presently specifies who may make of record (by notice of reliance) an interrogatory answer or an admission to a request for admission, is proposed to be amended to require that a party who seeks to rely upon certain of his or her own responses to interrogatories or requests for admissions, pursuant to the fairness exception presently provided in the paragraph, support his or her notice of reliance with a written statement explaining why he or she needs to rely upon each of the additional discovery responses listed in his or her notice, failing which the Board, in its discretion, may refuse to consider the additional parts. The proposed amendment parallels the proposed amendment to paragraph (j)(4) of the section and represents a codification of current practice. *See The Board of Trustees of the University of Alabama* v. *BAMA-Werke Curt Baumann, supra*, and *Holiday Inns, Inc.* v. *Monolith Enterprises*, supra.

Section 2.120(j)(8), which presently provides that "[i]nterrogatories, requests for production, requests for admissions, and materials or depositions obtained during the discovery period" should not be filed with the Board except under certain specified circumstances, is proposed to be revised to provide that "requests for discovery, responses thereto, and materials or depositions obtained through the discovery process" should not be filed with the Board except under the specified circumstances, and that papers or materials filed in violation of the paragraph may be returned by the Board. The purpose of the proposed amendment is to clarify the beginning of the paragraph, and to reduce the number of papers and materials which must be retained in a proceeding file and stored by the Board.

Section 2.121(a)(1) is proposed to be amended to include a new sentence codifying the practice that the resetting of a party's time to respond to an outstanding request for discovery will not automatically result in the rescheduling of the discovery and/or testimony periods, and that such dates will be rescheduled only upon stipulation of the parties approved by the Board, or upon motion granted by the Board, or by order of the Board.

Section 2.122(e), which presently requires that a notice of reliance on a printed publication specify the printed publication and the pages to be read, indicate generally the relevance of the material being offered, and be accompanied by "the printed publication or a copy of the relevant portion thereof, including the title page and any other page needed to show the place and date of publication, the name and address of the publisher, and the name of the author or the editor," is proposed to be simplified by revising the paragraph to require that the notice of reliance specify the printed publication (including information sufficient to identify the source and the date of the publication) and the pages to be read; indicate generally the relevance of the material being offered; and be accompanied by the printed publication or a copy of the relevant portion thereof.

Section 2.123(c) is proposed to be amended to clarify the paragraph and to codify the current practice that testimony depositions may be noticed for any reasonable time and place in the United States, but that a testimony deposition may not be noticed for a place in a foreign country except as provided in paragraph (a)(2) of the section. The proposed codification of practice as to the place where testimony depositions may be taken roughly parallels §1.673(a), which governs the taking of testimony depositions in patent interference proceedings in the PTO.

Section 2.123(e)(2) is proposed to be amended to include a new sentence stating that exhibits which are marked and identified at a deposition will be deemed to have been offered into evidence, without any formal offer thereof, unless the intention of the parties is clearly to the contrary. The purpose of the proposed amendment is to revise existing practice, which requires either a formal offer or a clear indication in the transcript of an intent to introduce the exhibits. *See, for example, Roux Laboratories, Inc.* v. *Kaler*, 214 USPQ 134, 135-136 (TTAB 1982); *H. Betti Industries, Inc.* v. *Brunswick Corp.*, 211 USPQ 1188, 1189 (TTAB 1981); and *Kay Corp.* v. *Weisfield's, Inc.*, 190 USPQ 565, 567-568 (TTAB 1976).

Under the existing practice, a party can lose a case simply because his attorney forgets to make a formal offer of the exhibits marked and identified during the party's testimony deposition. Under the proposed practice, the Board would be able to determine such cases on their merits, rather than on the basis of a technical defect.

Section 2.123(g)(1), which relates to the form of deposition transcripts, is proposed to be amended to permit the use of paper with numbered lines as an alternative to consecutively numbering the questions propounded to a witness. The proposed amendment, which parallels §1.677(a), the provision governing the form of deposition transcripts in patent interference proceedings, would serve to simplify practice.

Section 2.125(a) is proposed to be amended to codify the existing practice that if a copy of a deposition transcript, with exhibits, is not served upon each adverse party within thirty days after completion of the taking of the testimony or within an extension of time for the purpose, any adverse party who was not served may have remedy by way of a motion to the Trademark Trial and Appeal Board to reset his or her testimony and/or briefing periods, as may be appropriate. The paragraph is proposed to be further amended to provide that if the deposing party fails to serve a copy of the transcript with exhibits on an adverse party after having been ordered to do so by the Board, the Board may strike the deposition, or enter judgment as by default against the deposing party, or take other action as may be deemed appropriate.

Section 2.127(e)(1) is proposed to be added to codify the long-established practice that a motion for summary judgment should be filed prior to the commencement of the first testimony period, and that the Board, in its discretion, may deny as untimely any motion for summary judgment filed thereafter. *See Rainbow Carpet, Inc.* v. *Rainbow International Carpet Dyeing & Cleaning Co.*, 226 USPQ 718 (TTAB 1985); *Allegro High Fidelity, Inc.* v. *Zenith Radio Corp.*, 197 USPQ 550 (TTAB 1977); *La Maur, Inc.* v. *Bagwells Enterprises, Inc.*, 193 USPQ 234 (Comm'r Pat 1976); *Peterson's Ltd., Inc.* v. *Consolidated Cigar Corp.*, 183 USPQ 559 (TTAB 1974); *Cities Service Oil Co.* v. *Perfection American, Inc.*, 157 USPQ 209 (TTAB 1968); T. Jeffrey Quinn, *Tips From the TTAB: Inter Partes Summary Judgment Revisited*, 76 TMR 73 (1986); and David J. Kera, *Tips From the TTAB: Summary Judgment*, 71 TMR 59, 61-62 (1981).

Section 2.127(e)(2) is proposed to be added to provide, in essence, that for purposes of summary judgment only, a party may rely on his or her own responses to requests for discovery served upon him or her by an adverse party. The proposed amendment would serve to revise the Board's current practice, under which a party normally is not permitted to rely upon his or her own responses to discovery for purposes of summary judgment. It is believed that the proposed practice would be more consistent with the practice in the federal district courts.

Section 2.127(f) is proposed to be added to codify the existing practice that the Board does not have authority to hold any person in contempt, or to award attorneys' fees or other expenses to any party. Although paragraphs (f), (g), and (h) of §2.120, the section which governs the taking and use of discovery in inter partes proceedings before the Board, include provisions very similar in nature to the proposed paragraph, some litigants and/or their attorneys have mistakenly assumed that the Board has the authority to award attorneys, fees or other expenses in situations not involving a failure to provide discovery. The addition of the proposed paragraph to §2.127, the section which governs motions in general, would serve to clarify the matter.

Section 2.128(b), which presently provides, in pertinent part, that without leave of the Board, no brief shall contain more than fifty pages of argument, is proposed to be amended to specify a minimum type or print size for a brief and to provide that without prior leave of the Board, a main brief on the case shall not exceed fifty-five pages in length in its entirety. Litigants before the Board, and their attorneys, are often confused as to exactly what is encompassed by the term "argument," as used in the present paragraph. The proposed amendment would serve to simplify and clarify practice by specifying length limits for briefs in their entireties, followed by a list of the elements which are included within the length limit. The main brief length limit specified in the proposed paragraph is five pages longer than that specified in the present paragraph, because the proposed length limit covers the entire brief, including the table of contents and index of cases, whereas the present length limit does not.

Section 2.129(a), which presently provides, in pertinent part, that oral arguments at final hearing will be heard by three Members of the Board, is proposed to be amended to provide that such oral arguments will be heard by at least three Members of the Board. The purpose of the proposed amendment, which parallels a proposed amendment to §2.142(e)(1), is to reflect the Board's use of augmented panels in certain cases.

Section 2.134(a) is proposed to be amended to codify the practice that in a cancellation proceeding, an adverse party's consent to the respondent's voluntary surrender of the involved registration may be signed by the adverse party or by the adverse party's attorney or other authorized representative. The proposed amendment parallels proposed amendments to §§2.106(c), 2.114(c), and 2.135.

Section 2.135 is proposed to be amended to codify the practice that in an opposition, concurrent use, or interference proceeding, an adverse party's consent to an applicant's abandonment of the applicant's involved application may be signed by the adverse party or by the adverse party's attorney or other authorized representative. The proposed amendment parallels proposed amendments to §§2.106(c), 2.114(c), and 2.134(a).

Section 2.142(b) is proposed to be amended to redesignate the present paragraph as "(1)" and to add a new paragraph, designated "(2)," codifying the form requirements and a length limit (twenty-five pages) for briefs filed in connection with ex parte appeals to the Board.

Section 2.142(e)(1), which presently provides that oral argument on an ex parte appeal to the Board will be heard by three Members of the Board, is proposed to be amended to provide that such oral argument will be heard by at least three Members of the Board. The purpose of the proposed amendment, which parallels a proposed amendment to §2.129(a), is to reflect the Board's use of augmented panels in certain cases.

Section 2.142(f)(6) is proposed to be added to codify the practice that if, during an appeal to the Board from a refusal of registration, it appears to the examiner that an issue not previously raised may render the mark of the appellant unregistrable, the examiner may request the Board to suspend the appeal and to remand the application to the examiner for further examination.

Section 2.145(c)(4) is proposed to be added to provide that a party to a proceeding before the Board who commences a civil action, pursuant to Section 21(b) of the Act, seeking review of a decision of the Board must file written notice with the Board, within one month after the expiration of the time for appeal or civil action, in order to avoid premature termination of the Board proceeding. The purpose of the proposed amendment is to ensure that parties who seek review of Board decisions by way of civil action will be aware of the need for informing the Board thereof.

Section 2.186, which presently provides that any action with respect to an assigned application or registration which may or must be taken by a registrant or applicant may be taken by the assignee provided that the assignment has been recorded, is proposed to be amended by adding at the end the phrase "or that proof of the assignment has been submitted." The purpose of the proposed amendment is to bring the section into closer conformity with Section 10 of the Act.

Environmental, Energy, and other considerations:

The proposed rule change will not have a significant impact on the quality of the human environment or the conservation of energy resources.

The proposed rule change is in conformity with the requirements of the Regulatory Flexibility Act (Pub. L. 96-354), Executive Orders 12291 and 12612, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq.

The General Counsel of the Department of Commerce has certified to the Small Business Administration that the proposed rule change will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act, Pub. L. 96-354). The rule change includes no additional or increased fees. Substantive rights to use valuable trademarks are not adversely affected.

The Patent and Trademark Office has determined that this rule change is not a major rule under Executive Order 12291. The annual effect to the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individual industries, federal, state or local government agencies, or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The PTO has also determined that this notice has no federalism implications affecting the relationship between the National Government and the states as outlined in Executive Order 12612.

This rule contains collections of information subject to the Paperwork Reduction Act previously approved by OMB under ICB Number 0651-0009. Public reporting burden for this collection of information is estimated to average 25 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Commissioner of Patents and Trademarks, Washington, D.C. 20231 and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.

Notice is hereby given that pursuant to the authority contained in Section 41 of the Trademark Act of July 5, 1946, as amended, the Patent and Trademark Office proposes to amend Part 2 of Title 37 of the Code of Federal Regulations by amending §§2.42, 2.68, 2.91, 2.92, 2.93, 2.102, 2.104, 2.106, 2.112, 2.113, 2.114, 2.119, 2.120, 2.121, 2.122, 2.123, 2.125, 2.127, 2.128, 2.129, 2.134, 2.135, 2.142, 2.145, and 2.186, as set forth below. Additions are indicated by arrows and deletions by brackets.

PART 2—RULES OF PRACTICE IN TRADEMARK CASES

1. Section 2.42 is proposed to be amended by removing paragraph (b), removing the designation "(a)" from the remaining paragraph, and revising that paragraph to read as follows:

§2.42 Concurrent use.

[(a)] An application for registration as a lawful concurrent user shall specify and contain all the elements required by the preceding sections. The applicant in addition shall state in the application [,] ►the area, the goods, and the mode of use for which applicant seeks registration; and also shall state, ◄ to the extent of his knowledge, the concurrent lawful use of the mark by others, setting forth their names and addresses; registrations issued to or applications filed by such others, if any; the areas of such use; the goods on or in connection with which such use is made; the mode of such use; ►and ◄ the periods of such use ►.◄[; and the area, the goods, and the mode of use for which the applicant seeks registration.]

2. Section 2.68 is proposed to be revised to read as follows:

§2.68 Express abandonment (withdrawal) of application.

An application may be expressly abandoned by filing in the Patent and Trademark Office a written statement of abandonment or withdrawal of the application signed by the applicant, or the attorney or other person representing the applicant. The fact that an application has been expressly abandoned ►during the ex parte prosecution thereof◄ shall not, in any proceeding in the Patent and Trademark Office, affect any rights that the applicant may have in the mark which is the subject of the abandoned application.

3. Section 2.91 is proposed to be amended by revising the title thereof to read as follows:

§2.91 ►Declaration of interference.◄ [Interferences.]

* * * * *

4. Section 2.92 is proposed to be revised to read as follows:

§2.92 Preliminary to interference.

►An interference which has been declared by the Commissioner will not be instituted by the Trademark Trial and Appeal Board until the Examiner of Trademarks has determined that the marks which are to form the subject matter of the controversy are registrable, and all of the marks have been published in the Official Gazette for opposition.◄ [Before the declaration of an interference, the marks which are to form the subject matter of the controversy must have been decided to be registrable by each party except for the interfering mark.]

5. Section 2.93 is proposed to be amended by revising the title thereof, and by revising the text to read as follows:

§2.93 ►Institution◄ [Declaration] of interference.

An interference is [declared and] instituted by the mailing of a notice of interference to the parties. The notice shall be sent to each applicant, in care of his attorney or other representative of record, if any, and if one of the parties is a registrant, the notice shall be sent to him or his assignee of record. The notice shall give the name and address of ►every◄ [the] adverse party and of his attorney or other authorized representative, if any, together with the serial number and date of filing and publication [, if published,] of each of the applications►, or the registration number and date of issuance of each of the registrations,◄ [or registrations] involved.

6. Section 2.102 is proposed to be amended by revising paragraph (c) to read as follows:

§2.102 Extension of time for filing an opposition.

* * * * *

(c) The written request to extend the time for filing an opposition must be filed in the Patent and Trademark Office before the expiration of thirty days from the date of publication or within any extension of time previously granted, should specify the period of extension desired, and should be addressed to the Trademark Trial and Appeal Board. A first extension of time for not more than thirty days will be granted upon request. Further extensions of time may be granted by the Board for good cause. In addition, extensions of time to file an op-

position aggregating more than ►four months◄ [120 days] from the date of publication of the application will not be granted except upon (1) a written consent or stipulation signed by the applicant or its authorized representative, or (2) a written request by the potential opposer or its authorized representative stating that the applicant or its authorized representative has consented to the request, and including proof of service on the applicant or its authorized representative, or (3) a showing of extraordinary circumstances, it being considered that a potential opposer has an adequate alternative remedy by a petition for cancellation.

7. Section 2.104 is proposed to be amended by redesignating the present paragraph as (a) and adding new paragraph (b) to read as follows:

§2.104 Contents of opposition.

►(a)◄ The opposition must set forth a short and plain statement showing why the opposer believes he would be damaged by the registration of the opposed mark and state the grounds for opposition. A duplicate copy of the opposition, including exhibits, shall be filed with the opposition.

►(b) Oppositions to different applications owned by the same party may be joined in a consolidated opposition when appropriate, but the required fee must be included for each party joined as opposer for each class in which registration is opposed in each application against which the opposition is filed. ◄

8. Section 2.106 is proposed to be amended by revising paragraphs (b)(1) and (c) to read as follows:

§2.106 Answer.

* * * * *

(b)(1) ►An answer shall state in short and plain terms the applicant's defenses to each claim asserted and shall admit or deny the averments upon which the opposer relies. If the applicant is without knowledge or information sufficient to form a belief as to the truth of an averment, applicant shall so state and this will have the effect of a denial. Denials may take any of the forms specified in Rule 8(b) of the Federal Rules of Civil Procedure.◄ An answer may contain any defense, including the affirmative defenses of unclean hands, laches, estoppel, acquiescence, fraud, mistake, [or] prior judgment[.] ►, or any other matter constituting an avoidance or affirmative defense.◄ When pleading special matters, the Federal Rules of Civil Procedure[s] shall be followed. A reply to an affirmative defense need not be filed. When a defense attacks the validity of a registration pleaded in the opposition, paragraph (b)(2) of this section shall govern. A pleaded registration is a registration identified by number and date of issuance in an original notice of opposition or in any amendment thereto made under Rule 15, FRCP.

* * * * *

(c) The opposition may be withdrawn without prejudice before the answer is filed. After the answer is filed, the opposition may not be withdrawn without prejudice except with the written consent of the applicant[.] ►or the applicant's attorney or other authorized representative.◄

9. Section 2.112 is proposed to be amended by revising paragraph (a) to read as follows:

§2.112 Contents of petition for cancellation.

(a) The petition to cancel must set forth a short and plain statement showing why the petitioner believes he is or will be damaged by the registration, state the grounds for cancellation, and indicate►, to the best of petitioner's knowledge, the name and address of the current owner of the registration.◄ [the respondent party to whom notification shall be sent.] A duplicate copy of the petition, including exhibits, shall be filed with the petition.

* * * * *

10. Section 2.113 is proposed to be revised to read as follows:

§2.113 Notification of cancellation proceeding.

When a petition for cancellation has been filed in proper form (see §§2.111 and 2.112), a notification shall be prepared by the Trademark Trial and Appeal Board, which shall identify the title and number of the proceeding and the registration or registrations involved and shall designate a time, not less than thirty days from the mailing date of the notification, within which an answer must be filed. A copy of the notification shall be forwarded to the attorney or other authorized representative of the petitioner, if any, or to the petitioner. The duplicate copy of the petition for cancellation and exhibits shall be forwarded with a copy of the notification to the respondent (see §2.118) [.] ►, who shall be the party shown by the records of the Patent and Trademark Office to be the current owner of the registration or registrations sought to be cancelled, except that the Board, in its discretion, may join or substitute as respondent a party who makes a showing of a current ownership interest in such registration or registrations.◄ If the petition is found to be defective as to form, the party filing the petition shall be so advised and allowed a reasonable time for correcting the informality.

11. Section 2.114 is proposed to be amended by revising paragraphs (b)(1) and (c) to read as follows.

§2.114 Answer.

* * * * *

(b)(1 ►An answer shall state in short and plain terms the respondent's defenses to each claim asserted and shall admit or deny the averments upon which the petitioner relies. If the respondent is without knowledge or information sufficient to form a belief as to the truth of an averment, respondent shall so state and this will have the effect of a denial. Denials may take any of the forms specified in Rule 8(b) of the Federal Rules of Civil Procedure.◄ An answer may contain any defense, including the affirmative defenses of unclean hands, laches, estoppel, acquiescence, fraud, mistake, [or] prior judgment[.] ►, or any other matter constituting an avoidance or affirmative defense.◄ When pleading special matters, the Federal Rules of Civil Procedure shall be followed. A reply to an affirmative defense need not be filed. When a defense attacks the validity of a registration pleaded in the petition, paragraph (b)(2) of this section shall govern. A pleaded registration is a registration identified by number and date of issuance in an original petition for cancellation or in any amendment thereto made under Rule 15, FRCP.

* * * * *

(c) The petition for cancellation may be withdrawn without prejudice before the answer is filed. After the answer is filed, the petition may not be withdrawn without prejudice except with the written consent of the registrant[.] ►or the registrant's attorney or other authorized representative.◄

12. Section 2.119 is proposed to be amended by revising the title thereof, revising paragraphs (b) and (c), and adding new paragraphs (d) and (e) to read as follows:

§2.119 Service ►and signing◄ of papers.

* * * * *

(b) Service of papers must be on the attorney or other authorized representative of the party if there be such or on the party if there is no attorney or other authorized representative, and may be made in ►any◄ [either] of the following ways: (1) by delivering a copy of the paper to the person served; (2) by leaving a copy at the usual place of business of the person served, with someone in his employment; (3) when the person served has no usual place of business, by leaving a copy at his residence, with a member of his family over 14 years of age and of discretion; (4) transmission by ►the "Express Mail Post Office to Addressee" service of the United States Postal Service or by◄ first-class mail, which may also be certified or registered [,] ►; (5) transmission by overnight courier.◄ Whenever it shall be satisfactorily shown to the Commissioner that none of the above modes of obtaining service or serving the paper is practicable, service may be by notice published in the *Official Gazette*.

(c) When service is made by mail [,] ►or by overnight courier,◄ the date of mailing ►or of delivery to the overnight courier◄ will be considered the date of service. Whenever a party is required to take some action within a prescribed period after the service of a paper upon him by another party and the paper is served by ►first-class◄ mail, ►"Express Mail," or overnight courier,◄ 5 days shall be added to the prescribed period.

►(d) If a party to an inter partes proceeding is not domiciled in the United States and is not represented by an attorney or other authorized representative located in the United States, the party must designate by written document filed in the Patent and Trademark Office the name and address of a person resident in the United States on whom may be served notices or process in the proceeding. In such cases, official communications of the Patent and Trademark Office will be addressed to the domestic representative unless the application is being prosecuted by an attorney at law or other qualified person duly authorized under §10.14(c) of this subchapter. The mere designation of a domestic representative does not authorize the person designated to prosecute the proceeding unless qualified under §10.14(a), or qualified under paragraph (b) or (c) of §10.14 and authorized under §2.17(b).◄

►(e) Every paper filed in an inter partes proceeding must be signed by the party filing it, or by the party's attorney or other authorized representative, but an unsigned paper will not be refused consideration if a signed copy is submitted to the Patent and Trademark Office within the time limit set in the notification of this defect by the Office.◄

13. Section 2.120 is proposed to be amended by revising paragraph (a); revising the titles of paragraphs (d) and (g); redesignating paragraph (d) as (d)(2); adding new paragraph (d)(1); redesignating paragraph (g) as (g)(1); adding new paragraph (g)(2); redesignating paragraph (j)(3) as (j)(3)(i); adding new paragraph (j)(3)(ii); and revising paragraphs (j)(4), (j)(5), and (j)(8) to read as follows:

§2.120 Discovery.

(a) In *general*. The provisions of the Federal Rules of Civil Procedure relating to discovery shall apply in opposition, cancellation, interference and concurrent use registration proceedings except as otherwise provided in this section. The Trademark Trial and Appeal Board will specify the closing date for the taking of discovery. ►The opening of discovery is governed by the Federal Rules of Civil Procedure .◄

* * * * *

(d) ►*Interrogatories: request*◄ [*Request*] *for production.*◄ (1) The number of written interrogatories which a party may serve upon another party pursuant to Rule 33 of the Federal Rules of Civil Procedure shall not exceed twenty-five, except that the Trademark Trial and Appeal Board, in its discretion, may allow additional interrogatories upon motion therefor showing extraordinary circumstances, or upon stipulation of the parties. The twenty-five interrogatories, and any additional interrogatories allowed by the Board upon motion or stipulation, may contain a reasonable number of relevant subparts.◄

►(2)◄ The production of documents and things under the provisions of Rule 34 of the Federal Rules of Civil Procedure will be made at the place where the documents and things are usually kept, or where the parties agree, or where and in the manner which the Trademark Trial and Appeal Board, upon motion, orders.

* * * * *

(g) ►Sanctions,◄ [*Failure to comply with order.*] ►(1)◄ If a party fails to comply with an order of the Trademark Trial and Appeal Board relating to discovery, including a protective order, the Board may make any appropriate order, including any of the orders provided in Rule 37(b)(2) of the Federal Rules of Civil Procedure, except that the Board does not have authority to hold any person in contempt or to award any expenses to any party. The Board may impose against a party any of the sanctions provided by this subsection in the event that said party or any attorney, agent, or designated witness of that party fails to comply with a protective order made pursuant to Rule 26(c) of the Federal Rules of Civil Procedure.

►(2) If a party, or an officer, director, or managing agent of a party, or a person designated under Rule 30(b)(6) or 31(a) of the Federal Rules of Civil Procedure to testify on behalf of a party, fails to attend his or her discovery deposition, after being served with proper notice, or fails to provide any response to a set of interrogatories or to a set of requests for production of documents and things, and such party or the party's attorney or other authorized representative informs the party seeking discovery that he or she will not respond thereto, the Board may make any appropriate order, as specified in paragraph (g)(1) of this section .◄

* * * * *

(j) *Use of discovery deposition, answer to interrogatory, or admission.*

* * * * *

►(3)(i)◄ [(3)] A discovery deposition, an answer to an interrogatory, or an admission to a request for admission, which may be offered in evidence under the provisions of paragraph (j) of this section may be made of record in the case by filing the deposition or any part thereof with any exhibit to the part that is filed, or a copy of the interrogatory and answer thereto with any exhibit made part of the answer, or a copy of the request for admission and any exhibit thereto and the admission (or a statement that the party from whom an admission was requested failed to respond thereto), together with a notice of reliance. The notice of reliance and the material submitted thereunder should be filed during the testimony period of the party who files the notice of reliance. An objection made at a discovery deposition by a party answering a question subject to the objection will be considered at final hearing.

►(ii) A party who has obtained documents from another party under Rule 34 of the Federal Rules of Civil Procedure may not make the documents of record by notice of reliance alone, except to the extent that they are admissible by notice of reliance under the provisions of §2.122(e) .◄

(4) If only part of a discovery deposition is submitted and made part of the record by a party, an adverse party may introduce under a notice of reliance any other part of the deposition which should in fairness be considered so as to make not misleading what was offered by the submitting party. ►A notice of reliance filed by an adverse party must be supported by a written statement explaining why such party needs to rely upon each additional part listed in his or her notice, failing which the Board, in its discretion, may refuse to consider the additional parts.◄

(5) An answer to an interrogatory, or an admission to a request for admission, may be submitted and made part of the record by only the inquiring party except that, if fewer than all of the answers to interrogatories, or fewer than all of the admissions, are offered in evidence by the inquiring party, the responding party may introduce under a notice of reliance any other answers to interrogatories, or any other admissions, which should in fairness be considered so as to make not misleading what was offered by the inquiring party. ►The notice of reliance filed by the responding party must be supported by a written statement explaining why such party needs to rely upon each of the additional discovery responses listed in his or her notice, failing which the Board, in its discretion, may refuse to consider the additional responses.◄

* * * * *

(8) ►Requests for discovery, responses thereto,◄ [interrogatories, requests for production, requests for admissions,] and materials or depositions obtained ►through the discovery process◄ [during the discovery period] should not be filed with the Board except when submitted with a motion to compel discovery, or in support of or response to a motion for summary judgment, or under a notice of reliance during a party's testimony period. ►Papers or materials filed in violation of this paragraph may be returned by the Board.◄

14. Section 2.121 is proposed to be amended by revising paragraph (a)(1) to read as follows:

§2.121 Assignment of times for taking testimony.

(a)(1) The Trademark Trial and Appeal Board will issue a trial order assigning to each party the time for taking testimony. No testimony shall be taken except during the times assigned, unless by stipulation of the parties approved by the Board, or, upon motion, by order of the Board. Testimony periods may be rescheduled by stipulation of the parties approved by the Board, or upon motion granted by the Board, or by order of the Board. The resetting of the closing date for discovery will result in the rescheduling of the testimony periods without action by any party. ►The resetting of a party's time to respond to an outstanding request for discovery will not result in the automatic rescheduling of the discovery and/or testimony periods; such dates will be rescheduled only upon stipulation of the parties approved by the Board, or upon motion granted by the Board, or by order of the Board.◄

* * * * *

15. Section 2.122 is proposed to be amended by revising paragraph (e) to read as follows:

§2.122 Matters in evidence.

* * * * *

(e) *Printed publications and official records.* Printed publications, such as books and periodicals, available to the general public in libraries or of general circulation among members of the public or that segment of the public which is relevant under an issue in a proceeding, and official records, if the publication or official record is competent evidence and relevant to an issue, may be introduced in evidence by filing a notice of reliance on the material being offered ►. The◄ [, which] notice shall specify the printed publication ►(including information sufficient to identify the source and the date of the publication)◄ or the official record and the pages to be read ►;◄ [,] indicate generally the relevance of the material being offered ►;◄ [,] and be accompanied by the official record or a copy thereof whose authenticity is established under the Federal Rules of Evidence, or by the printed publication or a copy of the relevant portion thereof ►.◄ [, including the title page and any other page needed to show the place and date of publication, the name and address of the publisher, and the name of the author or the editor.] A copy of an official record of the Patent and Trademark Office need not be certified to be offered in evidence. The notice of reliance shall be filed during the testimony period of the party that files the notice.

* * * * *

16. Section 2.123 is proposed to be amended by revising paragraphs (c), (e)(2), and (g)(1) to read as follows:

§2.123 Trial testimony in inter partes cases.

* * * * *

(c) *Notice of examination of witnesses.* Before the depositions of witnesses shall be taken by a party, due notice in writing shall be given to the opposing party or parties, as provided in §2.119(b), of the time when and place where the depositions will be taken, of the cause or matter in which they are to be used, and the name and address of each witness to be examined; if the name of a witness is not known, a general description sufficient to identify him or the particular class or group to which he belongs, together with a satisfactory explanation, may be given instead. ►Depositions may be noticed for any reasonable time and place in the United States. A deposition may not be noticed for a place in a foreign country except as provided in paragraph (a)(2) of this section. No◄ [Neither] party shall take depositions in more than one place at the same time, nor so nearly at the same time that reasonable opportunity for travel from one place of examination to the other is not available.

* * * * *

(e) *Examination of witnesses.*

* * * * *

(2) The deposition shall be taken in answer to questions, with the questions and answers recorded in their regular order by the officer, or by some other person (who shall be subject to the provisions of Rule 28 of the Federal Rules of Civil Procedure) in the presence of the officer except when his presence is waived on the record by agreement of the parties. The testimony shall be taken stenographically and transcribed, unless the parties present agree otherwise. In the absence of all opposing parties and their attorneys or other authorized representatives, depositions may be taken in longhand, typewriting, or stenographically. ►Exhibits which are marked and identified at the deposition will be deemed to have been offered into evidence, without any formal offer thereof, unless the intention of the parties is clearly to the contrary.◄

* * * * *

(g) *Form of deposition.* (1) The pages of each deposition must be numbered consecutively, and the name of the witness plainly and conspicuously written at the top of each page. The deposition may be written on legal-size or letter-size paper, with a wide margin on the left

hand side of the page, and with the writing on one side only of the sheet. The questions propounded to each witness must be consecutively numbered ►unless paper with numbered lines is used,◄ and each question must be followed by its answer.

* * * * *

17. Section 2.125 is proposed to be amended by revising paragraph (a) to read as follows:

§2.125 Filing and service of testimony.

(a) One copy of the transcript of testimony taken in accordance with §2.123, together with copies of documentary exhibits and duplicates or photographs of physical exhibits, shall be served on each adverse party within thirty days after completion of the taking of that testimony. ►If the transcript with exhibits is not served on each adverse party within thirty days or within an extension of time for the purpose, any adverse party who was not served may have remedy by way of a motion to the Trademark Trial and Appeal Board to reset his or her testimony and/or briefing periods, as may be appropriate. If the deposing party fails to serve a copy of the transcript with exhibits on an adverse party after having been ordered to do so by the Board, the Board, in its discretion, may strike the deposition, or enter judgment as by default against the deposing party, or take any such other action as may be deemed appropriate.◄

* * * * *

18. Section 2.127 is proposed to be amended by adding new paragraphs (e)(1), (e)(2), and (f) to read as follows:

§2.127 Motions.

* * * * *

►(e)(1) A motion for summary judgment should be filed prior to the commencement of the first testimony period, and the Trademark Trial and Appeal Board, in its discretion, may deny as untimely any motion for summary judgment filed thereafter.◄

►(2) For purposes of summary judgment only, a discovery deposition, or an answer to an interrogatory, or a document or thing produced in response to a request for production, or an admission to a request for admission, will be considered by the Trademark Trial and Appeal Board if any party files, with his or her brief on the summary judgment motion, the deposition or any part thereof with any exhibit to the part that is filed, or a copy of the interrogatory and answer thereto with any exhibit made part of the answer, or a copy of the request for production and the documents or things produced in response thereto, or a copy of the request for admission and any exhibit thereto and the admission (or a statement that the party from whom an admission was requested failed to respond thereto).◄

►(f) The Board does not have authority to hold any person in contempt, or to award attorneys' fees or other expenses to any party.◄

19. Section 2.128 is proposed to be amended by revising paragraph (b) to read as follows:

§2.128 Briefs at final hearing.

* * * * *

(b) Briefs shall be submitted in typewritten or printed form, double spaced, ►in at least pica or eleven-point type,◄ on letter-size paper. ►Each brief shall contain an alphabetical index of cases cited therein.◄ Without ►prior◄ leave of the Trademark Trial and Appeal Board, ►a main brief on the case shall not exceed fifty-five pages in length in its entirety, including the table of contents, index of cases, description of the record, statement of the issues, recitation of facts, argument, and summary, and a reply brief shall not exceed twenty-five pages in its entirety.◄ [no brief shall contain more than fifty pages of argument and, in the case of a reply brief, the entire brief shall not exceed twenty-five pages. Each brief shall contain an alphabetical index of cases cited therein.] ►Three◄ [One original and two] legible copies, on good quality paper, of each brief shall be filed.

20. Section 2.129 is proposed to be amended by revising paragraph (a) to read a follows:

§2.129 Oral argument; reconsideration.

(a) If a party desires to have an oral argument at final hearing, the party shall request such argument by a separate notice filed not later than ten days after the due date for the filing of the last reply brief in the proceeding. Oral arguments will be heard by ►at least◄ three Members of the Trademark Trial and Appeal Board at the time specified in the notice of hearing. If any party appears at the specified time, that party will be heard. If the Board is prevented from hearing the case at the specified time, a new hearing date will be set. Unless otherwise permitted, oral arguments in an inter partes case will be limited to thirty minutes for each party. A party in the position of plaintiff may reserve part of the time allowed for oral argument to present a rebuttal argument.

* * * * *

21. Section 2.134 is proposed to be amended by revising paragraph (a) to read as follows:

§2.134 Surrender or voluntary cancellation of registration.

(a) After the commencement of a cancellation proceeding, if the respondent applies for cancellation of the involved registration under section 7(d) of the Act of 1946 without the written consent of every adverse party [,] ►to the proceeding,◄ judgment shall be entered against the respondent. ►The written consent of an adverse party may be signed by the adverse party or by the adverse party's attorney or other authorized representative.◄

* * * * *

22. Section 2.135 is proposed to be revised to read as follows:

§2.135 Abandonment of application or mark.

After the commencement of an opposition, concurrent use, or interference proceeding, if the applicant files a written abandonment of the application or of the mark without the written consent of every adverse party [,] ►to the proceeding,◄ judgment shall be entered against the applicant. ►The written consent of an adverse party may be signed by the adverse party or by the adverse party's attorney or other authorized representative.◄

23. Section 2.142 is proposed to be amended by redesignating paragraph (b) as (b)(1); adding new paragraphs (b)(2) and (f)(6); and revising paragraph (e)(1), to read as follows:

§2.142 Time and manner of ex parte appeals.

* * * * *

►(b)(1)◄ [(b)] The brief of appellant shall be filed within sixty days from the date of appeal. If the brief is not filed within the time allowed, the appeal may be dismissed. The examiner shall, within sixty days after the brief of appellant is sent to the examiner, file with the Trademark Trial and Appeal Board a written brief an-

swering the brief of appellant and shall mail a copy of the brief to the appellant. The appellant may file a reply brief within twenty days from the date of mailing of the brief of the examiner.

►(2) Briefs shall be submitted in typewritten or printed form, double spaced, in at least pica or eleven-point type, on letter-size paper. Without prior leave of the Trademark Trial and Appeal Board, a brief shall not exceed twenty-five pages in length in its entirety.◄

(e)[] If the appellant desires an oral hearing, a request therefor should be made by a separate notice filed not later than ten days after the due date for a reply brief. Oral argument will be heard by ►at least◄ three Members of the Trademark Trial and Appeal Board at the time specified in the notice of hearing, which may be reset if the Board is prevented from hearing the argument at the specified time or, so far as is convenient and proper, to meet the wish of the appellant or his attorney or other authorized representative.

* * * * *

(f)(1) ***

* * * * *

►(6) If, during an appeal from a refusal of registration, it appears to the examiner that an issue not involved in the appeal may render the mark of the appellant unregistrable, the examiner may request the Board to suspend the appeal and to remand the application to the examiner for further examination. If the request is granted, the examiner and appellant shall proceed as provided by §§2.61, 2.62, 2.63 and 2.64. After the additional ground for refusal of registration has been withdrawn or made final, the examiner shall return the application to the Board, which shall resume proceedings in the appeal and take further appropriate action with respect thereto.◄

* * * * *

24. Section 2.145 is proposed to be amended by adding new paragraph (c)(4) to read as follows:

§2.145 Appeal to court and civil action.

* * * * *

(c) *Civil action.*

* * * * *

►(4) A party to a proceeding before the Trademark Trial and Appeal Board who commences a civil action, pursuant to Section 21(b) of the Act, seeking review of a decision of the Board must file written notice thereof in the Patent and Trademark Office, addressed to the Board, within one month after the expiration of the time for appeal or civil action, in order to avoid premature termination of the Board proceeding.◄

* * * * *

25. Section 2.186 is proposed to be revised to read as follows:

§2.186 Action may be taken by assignee of record.

Any action with respect to an assigned application or registration which may or must be taken by ►applicant or registrant◄ [a registrant or applicant] may be taken by the assignee provided that the assignment has been recorded [.] ►or that proof of the assignment has been submitted.◄

SERVICE STATISTICS

• *Assignment Backlog Update* — During the past month a great deal of time has been devoted to improving reporting systems which has enabled us to uncover old unprocessed assignment documents. The improvements in reporting systems will help us enforce our first-in/first-out policy for processing.

We discovered several old multiple property patent and trademark assignments which were improperly held back from first-in/first-out processing. These assignments include from 50 to 2500 properties per document.

The multiple property trademark assignments date back to Sept. 1988. The multiple property patent assignments date back to Aug. 1988. We anticipate completing processing of these documents for public availability of information by Mar. 15, 1989.

We have also discovered many older single property patent documents which date back to Oct. 1988 mixed in with current work. These have been put in the front of the line for immediate processing.

Additionally, there are approximately 7,500 documents for which information currently available in the automated patent system requires correction before the assignment can be mailed. We will eliminate this backlog within the next two months.

The majority of single property trademark documents with a mail room date of Dec. 1988 were mailed back to senders on Feb. 16, 1989. The majority of single property patent assignment documents mailed back to senders in the month of Feb. were old assignments having mail room dates from July 1988 through Oct. 1988 which had not been received first-in/first-out processing.

As a reminder, assignments received with new applications take longer to record since we do not generally receive these documents for at least 30 days after filing of the application and application processing has been completed.

We are continuing to investigate problems and search out old documents in order to process assignments on a first-in/first-out basis. We ask that any problems and/or corrections to assignment records be brought to our at-

tention. We regret any inconvenience to the public for old documents which were incorrectly withheld from first-in/first-out processing.

IMPROVEMENTS TO SERVICES

- *New Night Depoit Box* — In response to a suggestion made by a frequent user of the night mail deposit box in the lobby of the Herbert C. Hoover Bldg., a new larger box has been installed. This new box, approximately one-third larger than the original, should be able to accommodate all the mail deposited each evening.

- *Return Postcards* — Individuals and firms filing papers with the PTO by mail may be informed of the receipt date of a particular document and, for patent applications, the application number assigned if a self-addressed and postage-paid postcard is provided. However, as a recent sample indicates, the requester frequently forgets to address the postcard properly or provides insufficient or no postage on the card which prevents the Correspondence and Mail Division from sending the postcard back to the requester.

  During the period of Oct. 1988 through Jan. 1989, the PTO received 651 postcards which were unable to be returned to the requester. The number and percentage of error for each reason cited is as follows:

Reason	*Number*	*Percentage*
No Return Address	236	36.3
No Postage	250	38.4
No Return Address and No Postage	82	12.6
Insufficient Postage	5	.8
Addressed to Commissioner of Patents and Trademarks	61	9.4
Incorrect Size	17	2.5

Please ensure that the postcards are properly addressed, have sufficient postage, and are the proper size (5½ x 3½). As you can see from the sample, within four months, hundreds of requests for information could not be processed, and the requesters are probably upset with the PTO for not returning these postcards.

HELPFUL HINTS

- *Clarification of Domestic Representative Requirement for Foreign Assignees* — A helpful hint that appeared in the Jan. 31, 1989 Official Gazette began, "When filing an assignment with a foreign assignee, an appointment of domestic representative is required."

  Although this statement is correct for trademarks (see Trademark Manual of Examining Procedure Section 501.07), it is not correct for patents. For patents 35 U.S.C. 293 allows, but does not require, appointment of a domestic representative for foreign patentees.

  We appreciate that this error was brought to our attention by a concerned member of the public.

- *Early Notification of Receipt of PCT Designated Office Cases* — If you would like to have early notification that the PTO has received requirements under 35 U.S.C. 371 to enter the Designated Office phase, you should send two self-addressed, stamped postcards with those requirements. The first postcard will be date stamped and returned to you upon receipt of the requirements by the PCT staff. The second postcard will be sent to you when the case is released to the Mail Room to join the regular flow of national applications. The second postcard will be stamped with the U.S. serial number. If only one postcard is sent, it will be marked with the U.S. serial number but will remain with the application until requirements are completed and the case is released. This is our current practice; however, we will be reviewing this practice with a view toward making any necessary modifications.

- *Procedures for Recording Foreclosures Affecting Patents and Trademarks* — The following is presented to clarify information which first appeared in the Apr. 12, 1988 issue of the Official Gazette:

  To facilitate recording of foreclosures not signed by a debtor and to avoid unnecessary court proceedings, the Assignment Branch will record foreclosures which comply with all of the following criteria:

  1. Submission of the foreclosure document with original endorsement by the secured party, or a vertified copy thereof;
  2. Identification of the patent by patent number, the patent application by serial number, the trademark by registration number, or the trademark application by application number. Identification may appear either in the body of the foreclosure document itself or in any addenda incorporated by reference;
  3. Reference to the security agreement recorded; and
  4. Submission of a vertified statement by a representative of the secured party stating that the patent or trademark has been legally foreclosed based upon the applicable state laws.

  Please note that the "foreclosure document" may be any contract that the secured party has used to obtain a debtor's signature.

  The above foreclosure procedures apply to both patents and trademarks.

- *Submission of Material in Triplicate* — Following the recent update of the PTO's consolidated Helpful Hints publication, we were advised that two statements concerning deposit accounts were in conflict. The first statement indicated that when statutory fees are to be charged to a deposit account, the processing of the application can be facilitated by submitting, in *triplicate*, the applicant's transmittal letter or other correspondence specifying the account to by charged.

  The other statement, involving 37 CFR 1.136(a), suggested that when an applicant petitions the Commissioner of Patents and Trademarks to extend the time for a response to an Office action, a *duplicate* copy of the document should be enclosed.

These documents, under each case, should be submitted in *triplicate*. This will eliminate the need for the Mail Room to photocopy the document and will reduce the processing time of incoming mail.

- *Use of "BOX ASSIGNMENTS"* — To expedite processing of patent and trademark assignments other than those filed with new patent applications, please place in a separate envelope addressed "BOX ASSIGNMENTS" and use the words "BOX ASSIGNMENTS" on transmittal letters for assignment documents.

  BOX ASSIGNMENTS cannot be used for assignments filed with new patent applications because these assignments remain with the patent applications until bibliographic data is key entered and the filing receipts are mailed. The bibliographic data keyed for filing receipts is then available in the automated patent assignment system for use in processing patent assignment documents.

Mar. 3, 1989.

Assistant Commissioner
for Administration.

SPECIAL BOXES FOR MAIL

Special PTO mail box numbers should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail is forwarded directly to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these special boxes. If any documents other than the specified type identified for each box are addressed to that box, they will be delayed in reaching the appropriate area for which they are intended.

The following special boxes should be used only for their specified purpose. Address mail as follows:

Box_____
Commissioner of Patents and Trademarks
Washington, D.C. 20231

Box 3	Mail for the Office of Personnel from NFC.
Box 4	Mail for the Assistant Commissioner for External Affairs and the Office of Legislation and International Affairs.
Box 5	"No fee" mail related to trademarks.
Box 6	Mail for the Office of Procurement.
Box 7	Reissue applications for patents involved in litigation and subsequently filed related papers.
Box 8	All papers for the Office of the Solicitor except communications relating to pending litigation.
Box 9	Coupon orders for U.S. patent and trademark copies.
Box 10	Orders for certified copies of patent and trademark applications.
Box 11	Electronic Ordering Service (EOS).
Box 12	Contributions to the Examiner Education Program.
Box 13	Mail for the Employee and Labor Relations Division.
Box AF	Expedited procedure for processing amendments and other responses after final rejection.
Box FWC	Requests for File Wrapper Continuation Applications.
Box Interference	Communications relating to interferences and applications and patents involved in interference.
Box Issue Fee	All communications following the receipt of a PTOL-85, "Notice of Allowance and Issue Fee Due," and prior to the issuance of a patent should be addressed to Box Issue Fee, unless advised to the contrary. Assignments are the exception. Assignments should be submitted in a separate envelope and not be sent to Box Issue
Box M. Fee	Correspondence related to a patent that is subject to the payment of a maintenance fee.
Box Non Fee Amendment	Non-fee amendments to patent applications. (Use Box AF for responses after final rejection).
Box OED	Mail for the Office of Enrollment and Discipline.
Box Pat. Ext.	Applications for patent term extension.

PATENT APPLICATION	New patent application and associated papers and fees.
TRADEMARK APPLICATION	New trademark application and associated papers and fees.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions,* and provides technical staff assistance in their use to aid the public, in gaining effective access to information contained in patents. CASSIS (Classification And Search Support Information System), which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making peper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collec patents from either microfilm or paper collections are generallcontemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS AMENDED, CORRECTED, ETC.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Any change to the registration will be indicated at the bottom of each entry under ELEMENTS AMENDED, CORRECTED OR RESTRICTED. With the exception of changes to the goods and services, additions to the registration will appear in asterisks and deletions of the registration will appear in brackets. Elements which are only changed will be listed with no punctuation. As to the goods/services statement, amendments to the goods/services will appear in asterisks and deletions will appear in brackets. In addition if any change to the goods/services occurs, the element "Goods/Services" will be listed under ELEMENTS AMENDED, CORRECTED OR RESTRICTED.
